

UEC Working Groups and Convenors

- Quality of Life
 - Mei Bai
- Funding, Politics and Programmatics
 - Paul Sorensen
- Site Access and Science
 - Kathleen Nasta/Kelly Guiffreda
- Media Communications and Outreach
 - Dan Cebra

2013-2014 Goals and Brainstorming

- Are there any people we'd like to appoint to the UEC?
- Who from lab management should we invite to our open meetings?
- Quality of Life:
 - Food services (hours/quality/weekend) follow-up on users poll? Update from BNL management?
 - Any housing issues?
 - Site transportation (stream-line the bicycle program, more useful hours for shuttle service, better train access)
 - Street closures to joggers and bikers? Over-aggressive policing?
- Funding, Politics and Programmatic
 - Planning ahead for another trip to DC
 - NUFO Display for RHIC (Peter and Elke had suggestions so far)

2013-2014 Goals and Brainstorming

- Site Access and Science
 - Pamphlet for people who arrive on weekends (police station) that gives information about food and transportation
 - Check with GUV center to see if there's a specific time when problems arise where having housing people on duty would help
- Media Communications and Outreach
 - Plan Annual Users Meeting (theme/title and schedule)
 - Open forum meeting in Newport News, VA Oct 23-26, 2013
 - Recruiting theorists?
 - Enhance communication with our constituents/Users
 - Email list openness (can we set it up so incoming emails don't need a moderator)
 - suggestion box (getting input from users)?
 - check-in/check-out survey (a poll a week after users visit)?
 - better advertisement of the UEC: how do we make ourselves useful to new users not plugged in to the system? How do they learn about us?
