# Publishing M/F Diversity Statistics

- We had a meeting with BNL Diversity: they approved our plan of publishing some diversity statistics
  - e.g. Percentages of Women/Men in various career categories
- Some categories we wanted to cross check: numbers look a little weird : theorists
- Campaign by Christine and Jaki questioning theory groups got detailed statistics—they also disagree a little with RHIC GUV Center numbers
- So we are still double checking: Conferences (future)—Open BNL Position
- Issue: Diversity programs only open to US Citizens
  - Advocate to have this changed!
