

Poster Thoughts

- We need a poster ... in the next couple of hours
 - Photo contest is out of the question; too late
 - Thus, for several reasons, we must use what is available in the BNL Photo Archive
- LiJuan and Peter P. have suggested the basic outline shown on the next page
- Its good. We still have time to consider alternate designs, if you wish, as long as we decide today

NSRL or Historical
Photos, too

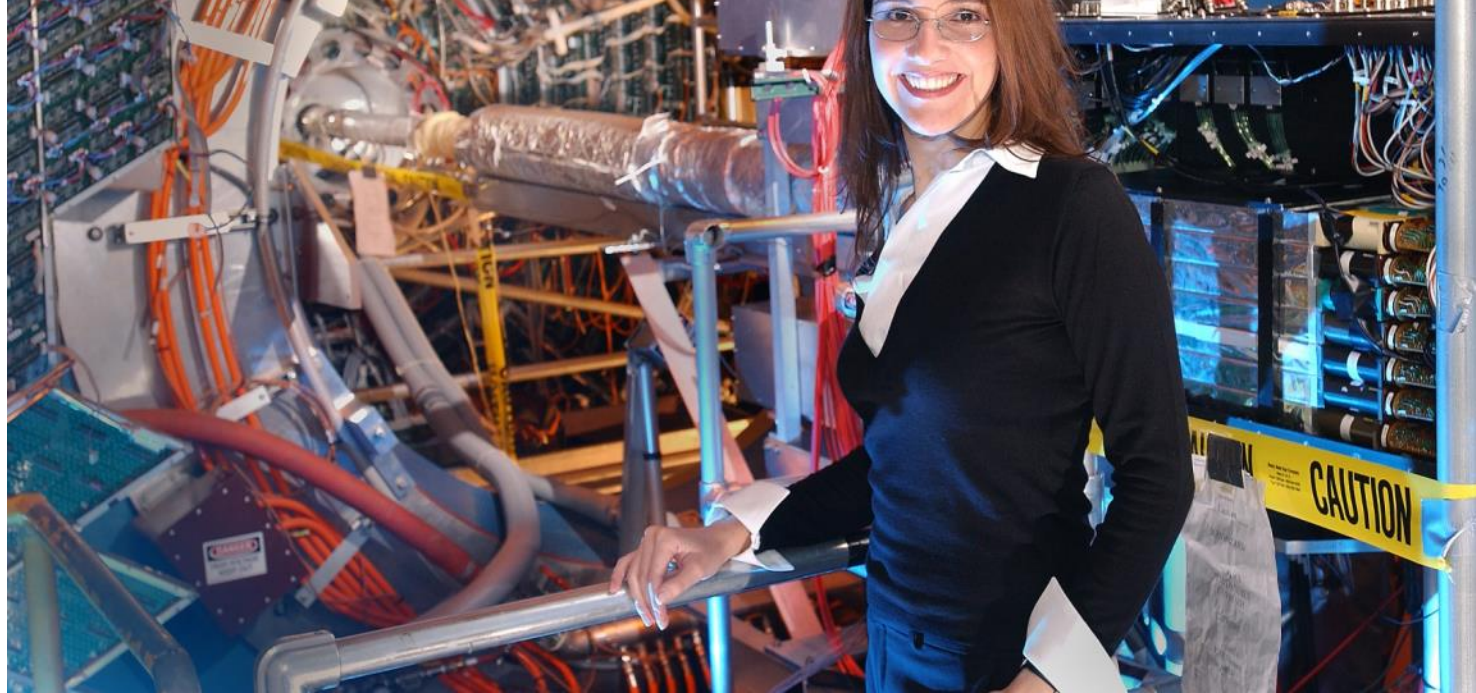

We can also
include cute
Puppy dog
photos
and/or Happy
People photos

Happy Animals

from the Labs photo archives

Happy STAR People

Happy PHENIX
People

My preference is for the frog

Proposed Meeting Format

- Tuesday: Workshops
- Wednesday: Hard Science
- Thursday: Politics, Politicians, Exp Overviews, 70 year celebration, Prizes and Posters
- Friday: The future at RHIC, future detectors, future accelerators, etc. Perhaps more celebration of 70 years at BNL

Proposed Workshops

- Run 18 is devoted to IsoBars
 - Strongly motivated by CME
 - What else can you do with isobars?
 - Does V_1 depend on isospin?
- Workshop on Proton Structure
 - Traditional Spin and structure topics
 - Michael Skoby Indiana CEEM
 - But also
 - QM saw some very exciting results on parton clustering in the proton
- Other suggestions?
