# Nuclear Physics DC Day in May

---

The date: May 22, 2017.

RHIC and AGS Fact Sheet, with minor modifications, need to be sent by  
On April 14.

Need provide delegate list by April 21.

So, we have 24 yes so far from the sign-up sheet covering 10 states, 6 maybes.

The 10 states are: Ohio, NY, TE, CA, PA, CO, Iowa, Maryland, Indiana, MA.

Not covered but we do have experimental collaborators:

New Jersey (Sevil said maybe)

Illinois (Ann Sickie said maybe, also emailed to Olga and Zhenyu)

Nebraska (emailed to Janet Seger and Mike Cherney at Creighton)

Georgia (sent email to Xiaochun He)

Florida (sent an email to Tony)

Texas (Carl will decide at the end of the month, also sent email to Frank Geurts)

New Mexico (emailed to Hubert, can not make it; emailed to Steve Pate, Doug Fields)

Connecticut (emailed to helen)

Michigan (Gary said no, wait for Joern, Sergei, and Bill's response)

Kentucky (contacted Renee and likely she will go)

In addition, contacted steffen bass for a North Carolina delegate.

**Dates for 2017 RHIC and AGS Users Meeting, June 20-23 .**

**Workshop organizers, done.**

**Plenary program for Thursday/Friday, more or less settled.**

**Lee Zeldin visit, tentatively confirmed.**

**Plenary Wednesday session: the main discussion here.**

## Plenary Wednesday session:

Peter and Agnes already have a prioritized list for theoretical talks:

Diffraction Jpsi and proton shape – Mantassari

EIC - Stasto

Quarkonium - Rothkopf or Brambilla

Lattice QCD at finite T,  $\mu$  – Ratti

Flow in small systems – Dumitru

Thermalization at weak coupling- Derek Teaney, Alexas Mazeliauskas

Agnes mentioned that 3 and 4 are changeable.

the experimental talks will be the following:

The first 5 are: CME-STAR, BES small-PHENIX, BES Large-STAR, SPIN-PHENIX, Jets sphenix (Rosi Reed).

The 6th: HF and quarkonium experimental talk.

The 7th: dilepton and photon talk.

# UEC elections

---

**Need to nominate  
at least 2 people to run for UEC Chair-Elect**
