DNP Meeting - Hawaii -Sept

- The time scheduled at DNP for the Users meetings was an afternoon between morning and evening talks.
- Considering three points:
 1. We didn't have a "crowd pulling" speaker
 2. Most participants will take advantage of the afternoon off to see Hawaii
 3. There wasn't really enough time to even give our dinner
- We decided to cancel the Users meeting this DNP - thought it would be worse to have poorly attended meeting than no meeting
- Jim checked with Steve and didn't he didn't object
