

Points to consider for MCO

- meetings, communication and outreach

UEC Meeting

August 14th 2009

Helen Caines

DNP Meeting - Hawaii -Sept

- At DNP there is usually at RHIC/AGS Users open meeting
- We tried to ask a RIKEN official to speak about Japan-USA opportunities but they felt it was too early (focus for them would have been EIC)
- Should we try and ask someone else? If so how?
 - Suggestions welcome?
- Should we have meeting without a speaker?
 - Who from UEC is attending?

RHIC News

- RHIC news is well read and a good outreach to the community
 - **THANKS** especially go to Peter, John, Susan, Gary, John
- It would be good to keep this initiative going
- If we keep this going we should try and publish regularly
- Idea to put “most interesting” articles also on RHIC’s main web page
- Peter et al. need more help collecting contributions
 - Volunteers please step forwards
 - Please encourage your collaborators to contribute even before being asked

Next RHIC/AGS Users meeting

- It seems a long way off we know but we need to start thinking about dates.
- What dates do people already know are not possible
 - i.e.
 - Hot Quarks - 14th-19th June
 - ALICE week - 28th June (not sure this matters)
 - any others?

Photo contest

- Do we want to do this?
- Assuming yes
 - For whole lab or just RHIC?
 - Public voting for “best” photo
 - Award being posted on RHIC front page and/or on RHIC/AGS poster
 - Separate competition for poster for lab. RHIC/AGS users?
- Next step to discuss with lab?
 - Gather some more details from DESY
